Sipster® And Insulator® Cups

Our Sippy Cups were created for all of baby's life stages.

At six months, your baby still depends on breast milk or formula for most of her nutrition. To begin the transition from breast or bottle to cup, start introducing water or juice mixed with water. From The First Sipster® Spill-Proof Cup to the larger sized Sipster® and Insulator® Cups, it's easy to discover the right cup for your child.

Our Spill-Proof Cups feature:

- Dishwasher-safe cups and valves- the SipEase® valve fits perfectly in a hole in the lid - it won't get lost
- High-quality cups that are break-proof and spill-proof
- Interchangeable lids, so if a lid is misplaced, just grab another one
- Fun colors and designs to entertain baby and you
